Initial Request for STEM OPT

Initial Evaluation of Training

Final Evaluation of Training

Purpose: This form is to be used for the (1) **initial requests** for STEM OPT and the subsequent (2) **required evaluation** of the practical training for those working at Penn State. The Department of Homeland Security (DHS) requires that students/employees in STEM OPT status be monitored by their employer on an annual basis to ensure they are complying with the training plan as set forth in DHS Form I-983, Section 5.

Monitoring the technical and academic merits and performance of the student/employee on the training plan as described in Form I-983, Section 5, is the joint responsibility of the student's/employee's direct supervisor and the Associate Dean for Graduate Education (or official designee) in the college/institution in which the student/employee is appointed.

This form documents the initial training plan/employment conditions and annual evaluation of that plan, so that the Penn State designated *Employer Signatory Authority* (ESA) and *Designated School Official* (DSO) can complete Sections 4 and 6 of DHS Form I-983, knowing that the training plan meets the requirements initially and has been followed during the review process.
